Hi Everyone,

I hope you have had an amazing summer and enjoyed the glorious weather we had, as the nights are closing in, our beautiful cosy salons have some lovely warming treatments to help with the winter blues.

We have been shortlisted in the final of the regional Professional Beauty Awards, a prestigious award in our industry, a little like the English Oscars of the Beauty Industry. Sally, Jenna, Paul and I are off to Manchester in October to see where we come but to be honest, we are just happy to be named as one of the top 4 salons in the South West. We will let you know how it goes.

All the salons are getting our heated blankets back out now the colder weather has arrived so any relaxation treatment you have will be in a luxurious heated bed, with candles and of course our beautiful spa music. Hot stones have also made an appearance and are fantastic for any kind of aches and pains.

Look inside also for our Christmas opening hours and Festive local street parties in Burnham, Clevedon and Winscombe.

Have a very happy winter, hope to see you soon.

Why choose Beauty Oasis Salons?

When we were getting ready for the judging for the Professional Beauty Awards this year I had to amass a number of documents to show we are an exemplar business in our industry. Whilst doing this and undertaking an interview from the judge which lasted 2.5 hours (pew!) I realised just how hard the Beauty Oasis Team work as a matter of course to ensure we, comply with local legislation, follow health and safety, continue training for every therapist as well as maintaining the salons and of course keeping all our lovely clients happy and providing the very best in treatments.

I was asked a lot of questions about the salons, promotional activity, safety, qualifications and continual professional development and between Paul and I we answered all of them fully. Of course all of this is no means effortless, but we do all of this because we feel passionate about our industry and raising standards, not because we have to, there are many in the industry that do not and are successful. We do not always get it right, no business does, but we all, every last one of us, really really care about the salons and our clients and for that I am proud to be part of Beauty Oasis Spa and all our beautiful girls (beautiful inside and out!) who work so hard each day because they care. Thank you!

Hot Stone Therapy

This is still a firm favourite in all the salons with both staff and clients, for those of you who have not tried it, or if you need to have a little reminder about why it works, here is the low down.

Although stones and heat have been used over the ages from ancient Egyptians and Japanese to native Americans to relieve pain and help with digestion a lady called Mary Nelson from Tucson Arizona in is credited for the form we use today. She was sitting in a native Indian sauna in 1993 with her niece and had a thought to pick up the hot stones that were lying around and use them on her nieces neck. From this she started to experiment with the stones, heating them up at home in a heater and using them for placement and massage.

She named this LaStone therapy and we all now do versions of this in spas and salons all over the world.

The Benefits

- One stroke of the stones is said to be as effective as seven by hand
- We use hot and cold stones to stimulate the body and produce different effects
- Hot stones reduces pain and tension in muscles and increases circulation
- Cold stones reduce inflammation swelling and bring about a feeling of lightness
- But more than that it feels amazing! Try one, they are available in all our salons.
